This French phrase is used for a special pawn capture It means flin passing,fl and it occurs when one player moves a pawn two squares forward to try to avoid capture by the op-ponent's pawn The capture is made exactly as if the player had moved the pawn only one square forward In the chess-board below, the White pawn moves up two squares

### **THE RULES OF CHESS**

The Rook (sometimes incorrectly called a castle) moves up, down, left, or right, 1 - 7 squares in any direction until the Rook reaches an obstruction or captures a piece (the Rook cannot jump over pieces and can only capture one piece per turn) [Ref: Figures 51 & 52] The white Rooks begin the game in the corners, a1 and h1 The black Rooks

### **A MATHEMATICAL ANALYSIS OF THE GAME OF CHESS**

The goal of chess is to capture the opposing player's king When a king is in danger of being captured by an opposing piece, that king is in "check" If black makes a move to put the white king in check, white must, in its subsequent turn, move so that the king is no longer in check This can be done

by moving the king out of check, moving
